

**MICHIGAN MEMORIAL PHOENIX PROJECT (MMPP)**  
**Admin/Service Unit**

Director: Steven L. Ceccio

Title: Associate Vice President for Research; Professor, Departments of Mechanical Engineering, and Naval Architecture and Marine Engineering

Term: 10/12/04 - open

Address: 3038 Phoenix Memorial Lab - 2100

Phone: 4-6215

Unique Name: ceccio

Administrator: Christopher W. Becker

Address: 3038 PML – 2100

Phone: 4-6213

Fax: 6-1571

Unique Name: cwbecker

## FORD NUCLEAR REACTOR SAFETY REVIEW COMMITTEE

NAME	ROLE	TITLE	TERM
Martin, William	Chair	Director, Laboratory for Scientific Computation; Professor, Dept. of Nuclear Engineering & Radiological Science	9/1/99- 6/30/05
Becker, Christopher	Member Ex Officio	Manager, Nuclear Reactor Laboratory, Michigan Memorial Phoenix Project	Open
Driscoll, Mark	Member Ex Officio	Director, Division of Radiation Safety, Occupational Safety & Environmental Health	Open
Griffin, Henry	Member	Professor, Department of Chemistry	7/1/71- 6/30/06
Kaviany, Massoud	Member	Professor, Dept. of Mechanical Engineering	3/11/98- 6/30/05
Lipton, William	Outside Member	Principle Engineer, The Detroit Edison Company - Fermi 2	7/1/00- 6/30/05
Robertson, Richard	Member	Director and Research Scientist, Macromolecular Science & Engineering Center; Professor, Dept. of Materials Science & Engineering; Professor, Engineering Admin.	7/1/99- 6/30/05
Ulaby, Fawwaz	Member Ex Officio	Vice President for Research; Professor, Electrical Engineering and Computer Science	Open
Wood, Douglas	Outside Member	ADVENT Engineering Services	8/9/95- 6/30/05

### CHARGE TO THE FORD NUCLEAR REACTOR SAFETY REVIEW COMMITTEE

The Safety Review Committee shall review the operations of the Ford Nuclear Reactor and shall advise the Director of the Michigan Memorial-Phoenix Project in matters relating to the health and safety of the public and safety of the facility operations.

The Committee is charged to:

- (a) Review and approve proposed experiments and tests utilizing the reactor facility which are significantly different from tests and experiments previously performed at the Ford Nuclear Reactor. In the event of a disagreement over approval of an experiment between the committee and the Nuclear Reactor Laboratory Manager, the matter shall be referred to the Director, Michigan Memorial-Phoenix Project for resolution.
- (b) Review reportable occurrences.
- (c) Review and approve proposed standard operating procedures and proposed changes to standard operating procedures. This requirement pertains to those procedures prepared pursuant to Section 6.4 of these specifications.
- (d) Review and approve proposed changes to the technical specifications and proposed amendments to the facility license and review proposed changes to the facility made pursuant to 10CFR50.59(c).
- (e) Review the audit report provided by the consultant for reactor operations.
