

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
APPOINTMENT	Appt_DeptID Most values are 6-digit. A small number are 4-digit, usually because they are old and there are no 6-digit counterparts.	Appointment DeptID	<u>Char</u>	The department which is granting an appointment and is responsible for commitment of title. It may or may not be the department responsible for funding the appointment.

APPOINTMENT	EmplID	Employee Identification Code	<u>Char</u>	The identification number assigned to uniquely identify a person in UM Human Resources records
-------------	---------------	------------------------------	-------------	--

APPOINTMENT	Jobcode	Job Class Code	<u>Char</u>	A code identifying a job classification title established by the Personnel Office.
-------------	----------------	----------------	-------------	--

APPOINTMENT	Jobcode_Descr	Job Class	<u>Char</u>	The description of a job classification as established by the Personnel Office.
-------------	----------------------	-----------	-------------	---

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
APPOINTMENT	National_ID	National ID	Char	A person's Social Security number.
CAMPUS ZIP	BuildingTxt	Campus Building Name	Char	The name of a campus building
CAMPUS ZIP	Work_Postal	Campus Zip Code Number	Char	4-digit campus zip code number associated a campus building
FINANCIAL CHARACTERISTICS	ComBdgtIDCRt	Committed Budget IDC Rate	Number	The primary indirect cost rate for a particular committed budget. This relates to sponsor's indirect cost. Each committed budget has its individual primary indirect cost rate.

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
FINANCIAL CHARACTERISTICS	Project_Grant	Project Grant Number	<u>Char</u>	The number assigned to accumulate financial activity for a particular purpose.

FINANCIAL CHARACTERISTICS	PrpslNum	Proposal Number	<u>Char</u>	A number used to uniquely identify a proposal.
---------------------------	-----------------	-----------------	-------------	--

FINANCIAL CHARACTERISTICS	SponCntrctTxt	Contract/Grant Number	<u>Char</u>	The number (which can be a combination of numbers and text) that is associated with a contract or grant from a sponsor.
---------------------------	----------------------	-----------------------	-------------	---

FINANCIAL CHARACTERISTICS	SysCreateDt	System Create Date	<u>Date</u>	An auto-generated date that occurs whenever budget data for a new committed budget is entered.
	Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA			

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
FINANCIAL CHARACTERISTICS	SysLastModDt Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification Date	<u>Date</u>	An auto-generated date that indicates the last time that any data in a given row in the FINANCIAL CHARACTERISTICS table was changed.
FINANCIAL CHARACTERISTICS	SysLastModID Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification ID	<u>Char</u>	The ID of the person who made the latest update on any data in a given row in the FINANCIAL CHARACTERISTICS table.
FINANCIAL CHARACTERISTICS	FinRecID Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	FinRecID	<u>Char</u>	a control number, for internal DRDA purposes
ORGANIZATION APPOINTMENT ORGANIZATION PROPOSAL	Dept_Descr	Department Name	<u>Char</u>	The full name of the department

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
ORGANIZATION APPOINTMENT ORGANIZATION PROPOSAL	DeptDRDARowName	Department DRDA Row Name	<u>Char</u>	The name associated with the value in DeptDRDARowNum
ORGANIZATION APPOINTMENT ORGANIZATION PROPOSAL	DeptDRDARowNum	Department's DRDA Row Number	<u>Char</u>	A number assigned by DRDA to departments for the purpose of searching for departments with certain School/College or with a common relationship. One or more of these numbers change over time. For instance, if a new number is added, other numbers may have to be re-assigned to accommodate the new one.
ORGANIZATION APPOINTMENT ORGANIZATION PROPOSAL	DeptID Please note: Most values are 6-digit. A small number are 4-digit (usually because they are old and there is no 6-digit counterpart).	Dept ID	<u>Char</u>	A code used to identify a University-designated budgetary unit, which may be academic or administrative.
ORGANIZATION APPOINTMENT ORGANIZATION PROPOSAL	DeptSubUnitNum Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	Department's Subunit Number	<u>Char</u>	The number of the mid-level department (e.g. department) to which a bottom-level department reports; the mid-level department reports to top-level department

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
ORGANIZATION APPOINTMENT ORGANIZATION PROPOSAL	DeptUnitNum Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	Department's Unit Number	<u>Char</u>	The number of the top-level department (e.g. college or department) to which a certain department reports, either directly or through mid-level department
ORGANIZATION APPOINTMENT ORGANIZATION PROPOSAL	SysCreateDt Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Create Date	<u>Date</u>	An auto-generated date that occurs when a department record is created.
ORGANIZATION APPOINTMENT ORGANIZATION PROPOSAL	SysLastModDt Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification Date	<u>Date</u>	An auto-generated date that indicates the latest date that a given record was changed in the ORGANIZATION table.
ORGANIZATION APPOINTMENT ORGANIZATION PROPOSAL	SysLastModID Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification ID	<u>Char</u>	The ID of the person who made the latest change to a given record in the ORGANIZATION table

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PERSON	Birthdate	Birth date	<u>Date</u>	Birth date
PERSON	Death_Status	Death Status	<u>Char</u>	A code derived from the field 'Date of Death' indicating whether the person is deceased.
PERSON	Dt_Of_Death	Date of death	<u>Date</u>	Date of death
PERSON	EmplID	Employee Identification Code	<u>Char</u>	The identification number assigned to uniquely identify a person in UM Human Resources records

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PERSON	Ethnic_Group	Ethnic Group Code	<u>Char</u>	A code representing a person's ethnic origin as defined by the federal Equal Employment Opportunity Commission (EEOC). Data for element should never be released in a name fashion.

PERSON	First_Name	First Name	<u>Char</u>	The first name of a person.
--------	-------------------	------------	-------------	-----------------------------

PERSON	First_Name_Srch	First Name (for Searching)	<u>Char</u>	First Name (special field that allows easier searching than the First_Name field does). The first name of a person. This field allows easier text-searching than the First_Name field. Oracle is case-sensitive.
--------	------------------------	----------------------------	-------------	--

PERSON	Last_Name	Last Name	<u>Char</u>	The last name of a person.
--------	------------------	-----------	-------------	----------------------------

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PERSON	Last_Name_Srch The last name of a person. This field allows easier text-searching than the Last_Name field. Oracle is case-sensitive.	Last Name (for Searching)	<u>Char</u>	Last Name (special field that allows easier searching than the Last_Name field does).

PERSON	Middle_Name	Middle Initial	<u>Char</u>	The middle initial of a person
--------	--------------------	----------------	-------------	--------------------------------

PERSON	NationalID	NationalID	<u>Char</u>	A person's Social Security number.
--------	-------------------	------------	-------------	------------------------------------

PERSON	Sex	Sex	<u>Char</u>	A code indicating a person's gender
--------	------------	-----	-------------	-------------------------------------

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PERSON	SysLastModDt Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification Date	<u>Date</u>	An auto-generated date: The date that data PERSON table was last updated by data im from the University of Michigan Human Re: tables

PERSON	Uniqname Values exist in this field only where uniqnames were supplied.	Uniqname	<u>Char</u>	The person's uniqname.
--------	---	----------	-------------	------------------------

PERSON	Work_Address1	Work Address Line 1	<u>Char</u>	Line 1 of a person's work address
--------	----------------------	---------------------	-------------	-----------------------------------

PERSON	Work_Address2	Work Address Line 2	<u>Char</u>	Line 2 of a person's work address
--------	----------------------	---------------------	-------------	-----------------------------------

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PERSON	Work_Postal	Campus Zip Code	<u>Char</u>	The campus zip code in a person's office ac

PERSON	Work_State	State	<u>Char</u>	
	Used only for off-campus addresses			

PROJECT REP	ProjRepCd	Project Representative Code	<u>Char</u>	A code representing the DRDA project representative for a proposal.
-------------	------------------	-----------------------------	-------------	---

PROJECT REP	ProjRepName	Project Representative Name	<u>Char</u>	The name of the DRDA project representati proposal.
-------------	--------------------	-----------------------------	-------------	---

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PROJECT REP	SysCreateDt Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Create Date	<u>Date</u>	An auto-generated date that occurs when a record is created in this table.

PROJECT REP	SysLastModDt Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification Date	<u>Date</u>	An auto-generated date that indicates the latest date that a given record was changed in this table.
-------------	--	-------------------------------	-------------	--

PROJECT REP	SysLastModID Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification ID	<u>Char</u>	The ID of the person who made the latest change to a given record in this table.
-------------	--	-----------------------------	-------------	--

PROJECT REP	ProjRepTitle	Project Representative Title	<u>Char</u>	The title of the DRDA project representative proposal.
-------------	---------------------	------------------------------	-------------	--

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PROPOSAL	AwdRcvDt Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	Award Received Date	<u>date</u>	the date the sponsor award document was i at DRDA

PROPOSAL	CIApproval	Central Inputting Approval	<u>Char</u>	A "yes" or "no" value indicating whether the Central Inputter approved the proposal in PI thus allowing it to be loaded into the Data S that night. Records in any tables that do not "yes" in this field in Proposal table will not b into Data Store. "No" is default value.
----------	-------------------	----------------------------	-------------	--

PROPOSAL	CIApprovDt Field was added 2/27/2002. Rows in this table that were entered field was added, do not have values in this field.	Central Inputting Approval Date	<u>Date</u>	Date on which the Central Inputter approve proposal in PRISM. See definition of "Central Inputting Approval".
----------	---	------------------------------------	-------------	---

PROPOSAL	Class	Proposal Class	<u>Char</u>	A code indicating the type of proposal.
----------	--------------	----------------	-------------	---

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PROPOSAL	Direct_Sponsor	Direct Sponsor Code	<u>Char</u>	A code identifying the direct sponsor or don funds of the account. A direct sponsor is the sponsor from whom the project will receive directly (A prime sponsor is one from whom project receives money indirectly, through th sponsor).

PROPOSAL	MstrPrpslNum	Master Proposal Number associated with the given	<u>Char</u>	The proposal number of a proposal which is "master proposal" in relation to the propos: question, if the proposal in question is a Ta Order proposal. IMPORTANT: "Master" and "Order" have special meanings in PRISM. These terms are used in a different way in PRISM other contexts (e.g. by Federal agencies). For see the PRISM definitions of these terms by doing any PRISM searches or reports.
----------	---------------------	--	-------------	--

PROPOSAL	Prime_Sponsor	Prime Sponsor Code	<u>Char</u>	A code identifying the prime sponsor or don funds of the account. A prime sponsor occurs when money is funnelled to the University of sponsor (which is the prime sponsor) through another sponsor (the direct sponsor).
----------	----------------------	--------------------	-------------	--

PROPOSAL	ProjRepCd	Project Representative Code	<u>Char</u>	A code representing the DRDA project representative for a proposal.
----------	------------------	-----------------------------	-------------	---

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PROPOSAL	PrpslActualHrdshpAmt Field is NULL; acting as placeholder for possible future data collection	Actual Hardship Amount	<u>Number</u>	The amount of hardship money approved for proposal.

PROPOSAL	PrpslAwdDt	Award Date	<u>Date</u>	The date on which a proposal was awarded indicated on the award document from the sponsor.
----------	-------------------	------------	-------------	--

PROPOSAL	PrpslAwdRestriction	Restriction Code	<u>Char</u>	A code representing a restriction placed on publication. The restriction was placed on the proposal at the Awarded or Turned Down status.
----------	----------------------------	------------------	-------------	---

PROPOSAL	PrpslCurStatCd	Current Status Code	<u>Char</u>	A code representing the current status of a proposal.
----------	-----------------------	---------------------	-------------	---

Table

PROPOSAL FACILITIES

Work_Postal	Campus Zip Code	<u>Char</u>	The campus zip code of a university building
--------------------	-----------------	-------------	--

PROPOSAL FACILITIES

SysCreateDt	System Create Date	<u>Date</u>	An auto-generated date that occurs when a record is created in this table.
Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA			

PROPOSAL FACILITIES

SysLastModDt	System Last Modification Date	<u>Date</u>	An auto-generated date that indicates the la date that a given record was changed in this
Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA			

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PROPOSAL FACILITIES	SysLastModID Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification ID	<u>Char</u>	The ID of the person who made the latest of a given record in this table.
PROPOSAL FACTOR	ApprvdDt Field is used for DRDA's internal purposes only; should not be used in queries by users outside of DRDA	Date of Approval	<u>Date</u>	
PROPOSAL FACTOR	Apprvnum Field was added to PRISM in mid-Jan. '02. Only proposals added to PRISM from that time forward, will have this field populated. Field only applies to the factors called Human Subjects and Vertebrate Animals.	Approval Number	<u>Char</u>	the approval number for the approval associated with a particular factor (see definition of field FactorCd in this table to see what a factor is). Field only applies to the factors called Human Subjects and Vertebrate Animals.
PROPOSAL FACTOR	Factor_Status Field was added to PRISM in mid-Jan. '02. Only proposals added to PRISM from that time forward, will have this field populated. Field only applies to the factors called Human Subjects, Vertebrate Animals, and Recombinant DNA. All other factors should have NA in this field.	Factor Status	<u>Char</u>	the approval status of the factor (see definition of field FactorCd in this table to see what a factor is). Field only applies to the factors called Human Subjects, Vertebrate Animals, and Recombinant DNA. All other factors should have NA in this field.

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PROPOSAL FACTOR	FactorCd	Factor Code	<u>Char</u>	A code representing any of the following as the proposal: A. Human Subjects; B. Vertebrates; C. Recombinant DNA; D. Classified; G. Proprietary; H. Radioactive; I. Other Restriction; J. Subcontract; K. Conflict of Interest; L. Work Off U Pr M. Study of Another Country; N. Radiol O. Human Substances; P. Etiologic Age R. Signature Present

PROPOSAL FACTOR	FactorCmt	Factor Comment	<u>Char</u>	Notes about a particular factor (see FactorC above)
-----------------	------------------	----------------	-------------	---

PROPOSAL FACTOR	PrpslNum	Proposal Number	<u>Char</u>	A number used to uniquely identify a propos
-----------------	-----------------	-----------------	-------------	---

PROPOSAL FACTOR	SysCreateDt	System Create Date	<u>Date</u>	An auto-generated date that occurs when a record is created in this table.
	Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA			

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PROPOSAL FACTOR	SysLastModDt Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification Date	<u>Date</u>	An auto-generated date that indicates the last date that a given record was changed in this
PROPOSAL FACTOR	SysLastModID Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification ID	<u>Char</u>	The ID of the person who made the latest change to a given record in this table.
PROPOSAL KEYTERM	KeytermTxt Use "Upkeytermtxt" instead of this field, for effective text searching.	Keyterm	<u>Char</u>	A textual description of a keyterm which can be used to search for specific research topics. There can be up to three "keyterms" on a proposal.
PROPOSAL KEYTERM	KeytermTxt_Srch This field allows easier text-searching than the Keytermtxt. Oracle	Keyterm (for Searching)	<u>Char</u>	A textual description of a keyterm which can be used to search for specific research topics. There can be up to three "keyterm"s on a proposal. KeytermTxt_Srch allows easier searching than the field Keytermtxt does, because Oracle is case-sensitive.

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PROPOSAL KEYTERM	PrpsID	Proposal Number	Char	A number used to uniquely identify a propos

PROPOSAL TO PERSON	EmpID	Employee Identification Code	Char	The identification number assigned to uniquely identify a person in UM Human Resources records
--------------------	-------	------------------------------	------	--

PROPOSAL TO PERSON	NationalID	National ID	Char	A person's Social Security number.
--------------------	------------	-------------	------	------------------------------------

PROPOSAL TO PERSON	PerRoleTypCd	Person Role Type Code	Char	A code representing the role a person has in relation to a proposal.
--------------------	--------------	-----------------------	------	--

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PROPOSAL TO PERSON	<p>Proc_DeptID</p> <p>Please note: Most values are 6-digit. A small number are 4-digit, because they are old and have no 6-digit counterpart.</p>	Processing DeptID	<u>Char</u>	The DeptID for the department or unit that is financially responsible for a particular person's participation on the proposal. The ProcDeptID can refer to Director's participation or a Co-Investigator's participation depending on the value for the PerRoleTyp (see PerRoleTypCd in this table, which will have a PD value for Director or a CO value Co-Investigator)
PROPOSAL TO PERSON	<p>PrpslNum</p>	Proposal Number	<u>Char</u>	A number used to uniquely identify a propos
PROPOSAL TO PERSON	<p>SysCreateDt</p> <p>Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA</p>	System Create Date	<u>Date</u>	An auto-generated date that occurs when a record is created in this table.
PROPOSAL TO PERSON	<p>SysLastModDt</p> <p>Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA</p>	System Last Modification Date	<u>Date</u>	An auto-generated date that indicates the last date that a given record was changed in this

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
PROPOSAL TO PERSON	SysLastModID Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification ID	<u>Char</u>	The ID of the person who made the latest change to a given record in this table.
SPONSOR FINANCIAL DETAIL	FinRecID Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	FinRecID	<u>Char</u>	a control number, for internal DRDA purposes
SPONSOR FINANCIAL DETAIL	PrpsNum	Proposal Number	<u>Char</u>	A number used to uniquely identify a proposal
SPONSOR FINANCIAL DETAIL	SponBegDt	Sponsor Begin Date	<u>Date</u>	The start date of the funding period, at a particular stage of the proposal process: Proposed, Awarded, or Committed.

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
SPONSOR FINANCIAL DETAIL	SponDirCostAmt	Sponsored Direct Cost Amount	<u>Number</u>	The sponsored Direct Cost amount associated with a proposal in a particular stage: Proposed, Awarded, or Committed.
SPONSOR FINANCIAL DETAIL	SponEndDt	Sponsor End Date	<u>Date</u>	The end date of the funding period, at a particular stage of the proposal process: Proposed, Awarded, or Committed. NOTE: See definition of SponNCTX for important info on time-extension awards/Committed Budgets.
SPONSOR FINANCIAL DETAIL	SponIDCAmt	Sponsored Indirect Cost Amount	<u>Number</u>	The sponsored Indirect Cost amount associated with a proposal in a particular stage: Proposed, Awarded, or Committed. Sponsored Indirect Costs are the amount of overhead (e.g., Utilities, libraries, etc.) calculated as a percentage of Modified Direct Costs.
SPONSOR FINANCIAL DETAIL	SponNCTX This field is populated only in records entered Feb. 4, 2002 or later. See "Element Definition" to the right here.	SponNCTX	<u>Date</u>	The field contains the new end-date of an Awarded or Committed Budget after a No-Cost Time-Extension from the sponsor has been entered into PRISM. This field will be populated only for time-extensions entered into PRISM Feb. 4, 2002 or later. Time-extensions entered before that will have been recorded in the old way: the Award End-date of the Committed Budget. End-date would have been changed (see Definition of field SponEndDt in the Sponsor Financial Detail table).

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
SPONSOR FINANCIAL DETAIL	SponStatusCd	Sponsor Status Code	<u>Char</u>	This is actually not a status code but a record code indicating whether the financial detail for a certain proposal represents the Pending, Awarded, or Committed stage. The values 0, 1, and 2. 0 indicates the row of ORACLE data for the pending stage; 1 indicates the row of ORACLE data for the Award stage; 2 indicates the row of data for the Committed budget stage (since there can be more than one committed budget. there can be more than one "2" row

SPONSOR FINANCIAL DETAIL	SponTotCostAmt	Sponsored Total Cost Amount	<u>Number</u>	A derived amount which is the summation of Sponsored Direct Cost Amount and the Sponsored Indirect Cost Amount.
-----------------------------	-----------------------	-----------------------------	---------------	---

SPONSOR FINANCIAL DETAIL	SysCreateDt Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Create Date	<u>Date</u>	An auto-generated date that occurs when a row of data (either Pending, Awarded or Committed) for a given Proposal is entered into the SPONSOR FINANCIAL table. Each proposal will have SysCreateDt for the Pending row, one for the Awarded, and one for each Committed Budget
-----------------------------	---	--------------------	-------------	--

SPONSOR FINANCIAL DETAIL	SysLastModDt Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification Date	<u>Date</u>	An auto-generated date that occurs when a row of data (either Pending, Awarded or Committed) for a given Proposal in the SPONSOR FINANCIAL table is changed. Each proposal will have SysLastModDt for the Pending row, one for the Awarded, and one for each Committed Budget
-----------------------------	--	-------------------------------	-------------	---

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format</u> <u>Type</u>	<u>Element Definition</u>
SPONSOR FINANCIAL DETAIL	SysLastModID Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification ID	<u>Char</u>	An auto-generated ID code that occurs whe given row of data (either Pending, Awarded Committed) for a given Proposal in the SPC FINANCIAL table is changed. Each propos have one SysLastModID for the Pending ro for the Awarded, and one for each Committ Budget row.

--	----------------------	--------------------	-------------	---

SPONSOR DIRECT AND SPONSOR PRIME	Sponsor_Descr100	Sponsor Description	<u>Char</u>	A textual description of the code identifying sponsor or donor of funds.
--	-------------------------	---------------------	-------------	--

SPONSOR DIRECT AND SPONSOR PRIME	SponState	Sponsor Mailing State Code	<u>Char</u>	A code representing the state of the sponso
	Field is NULL; acting as placeholder for possible future data collection			

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
SPONSOR DIRECT AND SPONSOR PRIME	SponZip Field is NULL; acting as placeholder for possible future data collection	Sponsor Mailing Zip Code	<u>Char</u>	The zip code of the sponsor.
SPONSOR DIRECT AND SPONSOR PRIME	SysCreateDt	System Create Date	<u>Date</u>	An auto-generated date that occurs whenever new sponsor is created in the SPONSOR table
SPONSOR DIRECT AND SPONSOR PRIME	SysLastModDt	System Last Modification Date	<u>Date</u>	An auto-generated date that indicates the last time that any of the fields associated with a Sponsor code were changed, in the SPONSOR table
SPONSOR DIRECT AND SPONSOR PRIME	SysLastModID Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification ID	<u>Char</u>	The ID of the person who last entered or changed any of the fields associated with a given sponsor code in the SPONSOR table.

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
SPONSOR DIRECT AND SPONSOR PRIME	SponAddress3Txt Field is NULL; acting as placeholder for possible future data collection	Sponsor Address Line 3	<u>Char</u>	Line 3 of Sponsor Address
SPONSOR DIRECT AND SPONSOR PRIME	SponAddress1Txt Field is NULL; acting as placeholder for possible future data collection	Sponsor Address Line 1	<u>Char</u>	Line 1 of Sponsor Address
SPONSOR FINANCIAL DETAIL	PACApproval Records with SponStatusCd 0 will never have values in this field.	Project Award Change Approval	<u>Char</u>	A "yes" or "no" value, indicating whether the Project Rep has approved the Project Award Change for the award or Con Budget in question
SPONSOR FINANCIAL DETAIL	PACApprovDt Field was added 3/5/2002. Rows in this table that were entered before this date do not have values in this field. Records with SponStatusCd 0 will never have values in this field.	Project Award Change Approval Date	<u>Date</u>	The date on which DRDA Project Rep staff that the DRDA Project Rep has approved the Project Award Change for the award or Con Budget in question. Records with SponStat or 2 in this table, that have a "No" in both tr and PANApprovDt, will not be loaded from t Filemaker transactional database into the O Data Store during the nightly load. "No" is d value.

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
SPONSOR FINANCIAL DETAIL	PANApproval Records with SponStatusCd 0 will never have values in this field.	Project Award Notice Approval	<u>Char</u>	A "yes" or "no" value, indicating whether the Project Rep has approved the Project Award for the award or Committed Budget in quest

SPONSOR FINANCIAL DETAIL	PANApprovDt Field was added 3/5/2002. Rows in this table that were entered before this date do not have values in this field. Records with SponStatusCd 0 will never have values in this field.	Project Award Notice Approval Date	<u>Date</u>	The date on which DRDA Project Rep staff that the DRDA Project Rep has approved the Project Award Notice for the award or Committed Budget in question. Records with SponStatusCd 0 or 2 in this table, that have a "No" in both PANApproval and PACApprovDt, will not be loaded from the Filemaker transactional database into the O Data Store during the nightly load. "No" is a value.
-----------------------------	---	---------------------------------------	-------------	--

SPONSOR GROUP DIRECT SPONSOR GROUP PRIME	Sponsor_Class	Sponsor Class Code	<u>Char</u>	A code describing the general nature of a sponsor
---	----------------------	--------------------	-------------	---

SPONSOR GROUP DIRECT SPONSOR GROUP PRIME	Sponsor_Class_Descr	Sponsor Class Description	<u>Char</u>	The name corresponding to the code which describes the general nature of a sponsor
---	----------------------------	---------------------------	-------------	--

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
UM FINANCIAL DETAIL	SysCreateDt Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Create Date	<u>Date</u>	An auto-generated date that occurs when a row of data for a given UM org code, at a g stage (Pending, Awarded, or for a given Committed budget), is entered into the UM FINANCIAL table. Each proposal will t a distinct SysCreateDt associated with each UM organization's contribution at each stage (Pending, Awarded, and for each Committed budget).
UM FINANCIAL DETAIL	SysLastModDt Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification Date	<u>Date</u>	An auto-generated date that occurs when a row of data for a given UM org code, at a g stage (Pending, Awarded, or for a given Committed budget), is changed in the UM FINANCIAL table. Each proposal will t a distinct SysLastModDt associated with each UM organization's contribution at each stage (Pending, Awarded, and for each Committed budget).
UM FINANCIAL DETAIL	SysLastModID Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	System Last Modification ID	<u>Char</u>	An auto-generated ID that occurs when a gi row of data for a given UM org code, at a g stage (Pending, Awarded, or for a given Committed budget), is changed in the UM FINANCIAL table. Each proposal will t a distinct SysLastModID associated with each UM organization's contribution at each stage (Pending, Awarded, and for each Committed budget).
UM FINANCIAL DETAIL	UM_CS_DeptID Most values are 6-digit. A small number are 4-digit, usually because they are old and there were no 6-digit counterparts.	UM Cost-sharing DeptID	<u>Char</u>	A DeptID representing an internal (UM) sou money contributed as cost-sharing to a prop a particular stage (Proposed, Awarded, or Committed).

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
UM FINANCIAL DETAIL	UMBegDt Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	UM Begin Date	<u>Date</u>	The start date of the period for which UM cost-sharing data (called "UM Financial" is given at either Pending, Awarded or Committed stage; each stage will have its own set of start/end dates (NOTE: at the Committed stage each Committed budget will have its own set of start/end dates for the UM Financial Detail.
UM FINANCIAL DETAIL	UMDirCostAmt	UM Direct Cost Amount	<u>Number</u>	The internal (UM) Direct Cost amount associated with a proposal in a particular stage (Proposed, Awarded, or Committed), and which comes from one particular UM source (the source is represented by a UM Org Code)
UM FINANCIAL DETAIL	UMEndDt Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	UM End Date	<u>Date</u>	The end date of the period for which UM cost-sharing data (called "UM Financial" is given at either the Pending, Awarded or Committed stage; each stage will have its own set of start/end dates (NOTE: at the Committed stage each Committed budget will have its own set of start/end dates for the UM Financial Detail.
UM FINANCIAL DETAIL	UMImputedIDCAmt	UM Imputed Indirect Cost Amount	<u>Number</u>	The internal (UM) imputed indirect cost amount associated with a proposal in a particular stage (Proposed, Awarded, or Committed). Imputed Indirect Costs are the amount of overhead (utilities, libraries, etc.) calculated by a percentage of Modified Direct Costs but not charged. As of about 7-1-98, all UM imputed indirect cost is allocated to org code 000101 in PRISM, rather than being broken down according to the individual department or unit org codes as it was in the past.

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
UM FINANCIAL DETAIL	UMRealIDCAmt	UM Real Indirect Cost Amount	<u>Number</u>	The internal (UM) real indirect cost amount associated with a proposal in a particular state (Proposed, Awarded, or Committed), and which comes from one particular UM source (the source represented by a UM Org Code). Real Indirect Costs are the amount of overhead (e.g., utilities, libraries, etc.) calculated by a percentage of Modified Direct Costs and CHARGED.
UM FINANCIAL DETAIL	UMTotCostAmt	UM Total Cost Amount	<u>Number</u>	A derived amount which is the summation of UM Direct Cost Amount, UM Real Indirect Cost Amount and UM Imputed Indirect Cost Amount for a given UM organization code
UM FINANCIAL DETAIL	UMnctx This field will be populated only in records entered Feb. 4, 2002 or later. See "Element Definition" to the right here.	UMnctx	<u>Date</u>	See "SponNCTX". UMnctx will simply mirror the date in that field. Where the Element Definition of SponNCTX mentions "SponEndDt", substitute "UMEndDt" in order to understand how the field UMnctx works. UMnctx is in the Um Financial Detail table.
UM FINANCIAL DETAIL	FinRecID Field is used for DRDA's internal control purposes only; should not be used in queries by users outside of DRDA	FinRecID	<u>Char</u>	a control number, for internal DRDA purposes

<u>Table</u>	<u>Technical Element Name</u> (with <u>Notes</u> below)	<u>Common Element Name</u>	<u>Format Type</u>	<u>Element Definition</u>
UM FINANCIAL DETAIL	PrpsNum	Proposal Number	Char	A number used to uniquely identify a propos

UM FINANCIAL DETAIL	UMStatusCd	UM Status Code	Char	This is actually not a status code but a reco it indicates whether the UM financial detail a certain proposal represents the Pending, Awarded, or Committed stage. The values 1, and 2. 0 indicates the row of ORACLE d for the pending stage; 1 indicates the row of ORACLE data for the Award stage; 2 indi the row of data for the Committed budget st (since there can be more than one committe budaet. there can be more than one "2" rov
